

Product Line Card

Portables

- 230 - 2,900 CFM
- Up to 7.5 HP
- Powder coated steel or flex hose fume arms
- Filter or cartridge units

Welding Booths

- Customized to fit customer's area and needs.
- With or without collectors
- Free 3-D drawing layout

Welding and Downdraft Tables

- Dual exhaust
- 700 - 800 CFM
- Backdraft & side options

- 2000 - 4000 CFM
- 5 - 10 HP

Exhaust fans

Booms

Stainless Steel

Cyclones

Cartridge Collectors - Self Cleaning

- 800 - 40,000 CFM
- Drum and Drawer models

Robotic Cells

- 1000 - 4000 CFM
- 5 - 10 HP
- Top mounted
- Floor mounted

manufactures: fume arms, portable units, robotic cells, downdraft tables, welding tables, blowers, fans, booms, hose reels, suction rails, ambient units, welding booths, dust collectors and environmental booths

Custom Design and Build is our Niche

Avani Environmental is a leading manufacturer of innovative designs and solutions that focus on the intense requirements of the modern manufacturing industry. We have designed sound solutions to protect your employees, while creating minimal environmental impact with our products and filters. Our products comply and exceed with the increasingly changing and stringent OSHA demands that are in place to protect and serve the health and well being of your employees and personnel. With added benefits such as energy savings, maximum equipment operating efficiency, reduced maintenance costs, and improved indoor air quality. Avani's products provide the employee and workplace a clean and safe working environment so you can focus on what is important to you, manufacturing your goods.

Customized Products

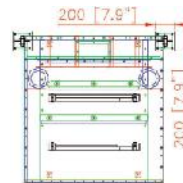

Avani's customized equipment is made to customer specifications

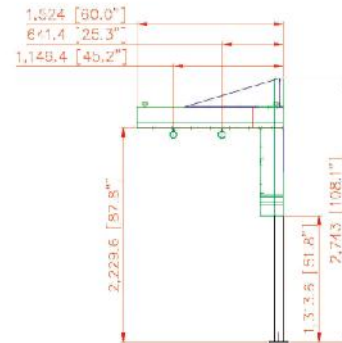

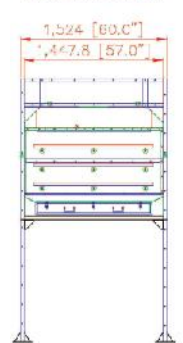

Avani provides our customers with the full support of professional installations, engineered drawings, layouts and 3 dimensional drawings.
